1. Participants to the meeting

Elina KOSKENTALO (FI), Géraud AMIC (FR), Frans HIETBRINK (NL), Mikael EKLUND (SE), Daniel EIDELMAN (UA), Hugh WALLIS (Certent) and Gilles MAGUET (XBRL Europe).

Frans received mails that Valdek JÄRVPÕLD (EE), Bas GROENVELD (NL) and Björn RYDBERG (SE) will not be able to join this meeting.

2. Announcements

Tallin eGov:

- Valdek sent some information regarding the Tallinn e-government declaration which was signed by 32 counties in Tallinn October 6th. Two points are very important for us:
 - “the Commission to further explore possibilities of Standard Business Reporting in view of the implementation of the ESMA European Single Electronic Format to make company data comparable, transparent and accessible digitally to reduce administrative burdens;”
 - “the Commission to discuss cross-border interoperability principles and work to reach relevant agreements with global partners, especially the eIDAS framework for global interoperability and mutual recognition of electronic identities and trust services;”
- Elina sent the link to the signed version of the declaration: <https://ec.europa.eu/digital-single-market/en/news/ministerial-declaration-egovernment-tallinn-declaration>
- Frans sent some information regarding the Tallinn e-government declaration. During the conference the Dutch delegation shared information about SBR with delegates from Portugal, Hungaria, Lithuania, Slovenia, Sweden, Finland, Belgium, Austria, Luxemburg, Estonia and European Commission:
 - Whitepaper_General_information_SBR_Oct_2017.pdf
 - The_potential_of_SBR_at_EU_level_Oct_2017.pdf
 These documents can be found at: <https://www.sbr-nl.nl/english-site/news/#c14721>
- Frans will add these documents to the website (**Action: Frans**)
- Daniel asks about the relation between ESEF and SBR. While he is pleased that SBR is part of the declaration, he is afraid that the position in the declaration is too marginal. But then again, better a marginal position than no position at all.
- Gilles explains that it was good that the Dutch delegates explained SBR in bilateral sessions.
- Frans mentions that the Dutch Ministry of Economic Affairs is preparing follow-up-actions regarding SBR.
- Frans asks whether other participants of the SBR WG can share names of contact-persons within their government (Ministries, Business Registers, Tax Administrations) who are willing to participate in follow-up-actions.
- Frans will send some additional info by email (**Action: Frans**)
- All participants will reach out to their governments (**Action: All**)

EU-Rolling Plan 2018:

- The EU-Commission yearly produces a "Rolling Plan on ICT Standardisation": http://ec.europa.eu/growth/content/2017-rolling-plan-ict-standardisation-released-0_en
- One of the topics of the 2017 Rolling Plan is XBRL:
 - page 7: “This Rolling Plan calls for standardisation actions in support of the implementation of business reporting by Member States, in the context of the revised Transparency Directive.”
 - page 86 and further describe “Legislation and policy documents”, “Proposed new standardisation” and “Standardisation needs, ongoing activities and progress report”.
- It looks like there is a development that XBRL will be part of a new chapter Fintech/Regtech. This might limit the usage of XBRL to the Finance Industry. The NL proposes that there will be a connection to SBR (as described in the Tallin declaration).
- The other participants of the SBR WG are not involved in the update of the Rolling Plan.
- Frans will add this information to the website (**Action: Frans**)

Denmark and the EC:

- PwC hosted a workshop with delegations from Danish Business Authority, PwC Denmark, PwC Netherlands and SBR Netherlands regarding Automatic Business reporting in Denmark.

France:

- Gilles and Géraud sent some extra information regarding the developments in France:
 - "The CNIL (French National information technology and liberty Commission) rules were making difficult to interconnect files of individual data. This could be a difficulty for the development of SBR techniques in France. However this issue has been solved in many countries and must be seen in the light of the new directive for private and personal data in the EU.
 - Nevertheless the situation is evolving quickly in France due to 3 factors:
 - 1) the last presidential election has modified the state of mind in the governmental ministries, bodies and agencies
 - 2) the choice of ESMA for the ESEF in iXBRL has impacted also this state of mind
 - 3) the modifications also in the mind of the statutory professions which has started to evolve as well.
 - These reasons are leading to some reshuffling of the landscape. That is also been reinforced by the Tallin ministerial declaration of the last 6th of October which calls the European Commission to "to further explore possibilities of Standard Business Reporting in view of the implementation of the ESMA European Single Electronic Format to make company data comparable, transparent and accessible digitally to reduce administrative burdens". This Tallin declaration had certainly a favourable impact on the position of the French ministry of Economy in charge of this aspect for the SME's. Evidently on the one hand and like in many countries it will be difficult to counter the lasting effect of the historical silo approach. But on the other hand the momentum seems to be there."
- Gilles clarifies that there is a push from the Tax Administration for EDI for Annual Accounts based upon the methodology of Tax Declarations. There is still the risk of silo-approaches without much cooperation.

Sweden:

- Björn sent an email regarding the 2nd Swedish SBR conference in Stockholm. Good news is that all the main authorities in the project – Tax, Business registrar and Statistics are involved. Swedish tax released on the conference that they will now also have XBRL as a component in building further on their tax reporting for corporations.
- Björn sent a link to the Animation they produced for the event and for further use to promote SBR in Sweden:
<https://www.youtube.com/watch?v=QAQhNMUp5Ts&feature=youtu.be>
- Björn also included a link to the event-part of our XBRL.se website, hosting the presentations from the event. It is all in Swedish, but we might get something out of it.
<http://www.xbri.se/event/>
- Frans will add this information to the website (**Action: Frans**)
- Mikael mentions that just before the SBR Conference there was a meeting of Swedish Industry Organisations related to annual accounting by companies.

Ukraine:

- Daniel mentions that the Mandate regarding Single Window Financial Reporting became law last month (XBRL, IFRS Taxonomy). The final step will be the signing of the law by the president.

3. Minutes of previous Conference Call

3.1. Draft Minutes

October 13th Gilles and Géraud sent an email regarding the Draft Minutes. This text is added to the 0.91-version. There are no comments during the conference call.

3.2. Action List

Frans mentions that the Actions regarding the survey, the analysis and the issue papers will be discussed later in the Conference Call.

4. Survey

4.1. Responses to the survey

Orange:	personal link sent;	no response received yet
Blue:	response received;	cross domain approach: NO
Green:	response received;	cross domain approach: YES
Light Green	response received;	cross domain approach: YES, response will be updated

Steffen (DE), Niels-Peter (DK) and Kyle (UK) were not present in the previous Conference Calls, Frans reached out to them by email. There has been no response yet from DK and UK. Frans will try to contact them before / during Data Amplified. Steffen mentioned that he has not yet received any update from the authorities yet.

On October 12th Finland answered the survey.

- The report was published on the website on October 13th.
- Elina mentions that it was challenging to gather the information from all the regulators, especially to get answers on the open questions. Hopefully there will be a more extensive version in 2018.

On October 12th Estonia requested to make some small changes regarding their answers:

- 7. Semantic standards used: Base-register-codes: Yes
- 9. Technical standards used: XBRL GL: Yes
- 10: New information about technical standards. From January 2018 it is possible to send Wages and Salary information to the Statistical department by XBRL GL
- The updated report was published on the website on October 13th.

On October 13th Gilles sent an email mentioning that the answer to this survey should be monitored more closely by the French community at large and maybe and due to these possible evolutions a dedicated group should be set up in the next months for that.

4.2. Analysis of the responses

On October 13th Frans sent a new version (version 4) of the analysis-powerpoint, including FI and the update from EE.

There are no comments during the conference call. Frans will correct a few small mistakes and publish the analysis (version 4.1) on the website (**Action: Frans**)

5. Issue Papers

5.1. Issue Paper Assurance

On October 13th Frans sent a new version (version 0.4) of the Issue Paper, based upon reactions from FI, FR and NL.

Valdek sent the Issue Paper Assurance to Information System Authority Republic of Estonia. They approved his draft document, which he sent to Frans on October 13th. Frans will add these comments to the Issue Paper (**Action: Frans**)

Daniel already sent a reaction on September 8th regarding the Issue Paper. Frans already used some of his remarks in version 0.4. Daniel requests to process the other remarks as well (**Action: Frans**).

Géraud mentions that there is no digital process for filing in France, so there is no digital auditor's report as well. Digital filing for listed companies will start in 2021. There are 7 French companies who have filed XBRL to the SEC.

5.2. Issue paper LEI

On October 13th Frans sent a first version (version 0.1) of the Issue Paper. He would like to discuss the scope of this Issue Paper. Relevant topics could be:

- system(s) of Citizen Numbers in a country
- systems of Organisational Numbers in a country
- goal of Numbers (identification within a report, identification during the access to a website or a s2s-connection, identification within an assurance process)
- issues within a country
- what is LEI
- where can LEI help us

Daniel mentions that within UA the LEI is used as non-primary key within reports.

Elina mentions that LEI is not (yet) part of the conversation in FI.

Mikael states that you cannot exist in Sweden without a personal number. Nevertheless he recognizes the problem of cross-border-transactions and identifying foreign entities.

5.3. Other Issue Papers

Frans mentions that he has not started yet on Issue Papers regarding interface technologies, chart of accounts and IFRS.

6. Next meetings

Our next SBR meeting (face to face) will be in **November** during Data Amplified (XBRL II) in Paris:

- <https://www.dataamplified.org/program/>
- XBRL II have requested the meeting to be open (like on XBRL-EU-meetings)
- XBRL II has approved that the meeting will take place during the member assembly meeting. XBRL II has reserved Forum A for SBR WG from on Monday November 6th 10 – 11:30.
- present survey
- presents results of survey (based upon XBRL EU-members)
- make plans regarding committing other XBRL II-members to survey

Our next SBR meeting (conference call) will be planned on a monthly basis (**Action: Frans**)

- further discuss Survey and Analysis
- discuss Issue Papers

- (further inventory of present and new legislation)
- preparation on XBRL Europe Day (Copenhagen)
